Provider Name: _____

Provider Signature: _____ Date: Sample 7 mm/dd/yyyy

Prior authorization alone is not a guarantee of benefits or payment. Actual availability of benefits is always subject to other requirements of the health plan, such as limitations and exclusions, and eligibility at the time services are provided. The applicable terms of a patient's plan control the benefits that are available. At the time the claims are submitted, they will be reviewed in accordance with the terms of the plan.

Patient Name: _____ 9-Digit Health Plan Member ID#: Sample 1

G) Requested Prescription Information (for additional requests, attach a separate copy of this page)

Drug Name: _____ Strength: _____

Dosage Form: _____ Quantity: _____ Day Supply: Sample 9

Has the patient already started the medication? ☒ YES ☐ NO Date Started: Sample 8
mm/dd/yyyy

Place of infusion/injection (if applicable): _____

Facility Provider/TIN (if applicable): _____

H) Rationale for Prior Authorization: *(e.g., history of present illness, past medical history, current medications, etc.); please attach chart notes to support the request.*
Medicaid providers are encouraged to use equally efficacious and cost-saving preferred agents whenever possible. Previous medications used must be reflected in paid pharmacy claims.

I) Failed/Contraindicated Therapies: (Include drug name, strength, dosing schedule, duration, and reason for discontinuation or contraindication).

J) Will any current medications for this indication be discontinued if this drug is approved?
If so, list below:

K) Specific goals of therapy/clinical benefit and other pertinent information:
(e.g., relevant diagnostic labs, measures, response to treatment, etc.)

L) Supplemental Information: Certain medications will require supplemental information to complete the request review. Please refer to the plan's website for additional information that may be necessary for review. Note that sending this form with insufficient clinical information may result in an extended review period or adverse determination. Plans may require additional information based on the type of drug being requested that may require follow-up inquiries with the prescriber.
